

# SOAR AT UHS

Fall 2020 Newsletter - Virtual Services

## Who are we?

In 2017 the Mountaineer Boys and Girls Club expanded their after school 21st century community learning centers (CCLC) grant programming to University High School. Funded through a WV Department of Education Nita M. Lowey 21st CCLC Grant, SOAR (Services of After-School Resources) at UHS offers every student a variety of opportunities during after school hours. We offer tutoring geared to help students succeed academically, and we also sponsor several clubs that allow students to become engaged in enriching extracurricular activities after school.

## Highlights + Upcoming:

- With a new school year comes after school clubs and tutoring! Be sure to check out our website below for more information on these services.
- We are now introducing **Study Skills** and **Life Skills**. Interested in learning any of these skills? Keep an eye out for our **interactive websites** (release date TBD)!
- October is right around the corner, so be on the lookout for our annual Lights On Afterschool event!
