

Good Evening!

On behalf of Superintendent Dr. Campbell, we'd like to recognize what an amazing first day of Arctic Academy we've had! It's a pleasure seeing students working at home and parents sharing via social media! Lunch today was a huge success! A big shout out to our fabulous cooks for all they do! The big lunch news for tomorrow – is that not only will we continue to have Grab & Go at each school - we will also have school buses driving out into their communities and delivering lunches to locations near you. Thank a bus driver when you see them! Go to the county website – look at the Coronavirus page – and find the list of delivery locations and what time they will be there! I will also post the list via Facebook and Twitter! Please continue working on Arctic Academy lessons! Remember social distance is important as well as reminding ourselves and children to wash those hands and not touch our faces! Stay strong!
