

Feature Story Mathew Gadd

Mathew Gadd, a junior at Clay-Battelle High School, plays kicker, defensive tackle, and tight end for the Cee Bees.

Last Friday, during a victory game against Hundred High School, Gadd and the other Cee Bees won their way into the playoffs. Gadd says he personally believes that he had one of his best kicking games against Hundred. He hopes to improve his speed for next season.

This Saturday the Cee Bees will take on the Ritchie County Rebels in the playoffs. This is the first time since 2014 that the Clay-Battelle community will get to cheer on their home team in the playoffs! Go Cee Bees!

'Levy provides for my education and family'

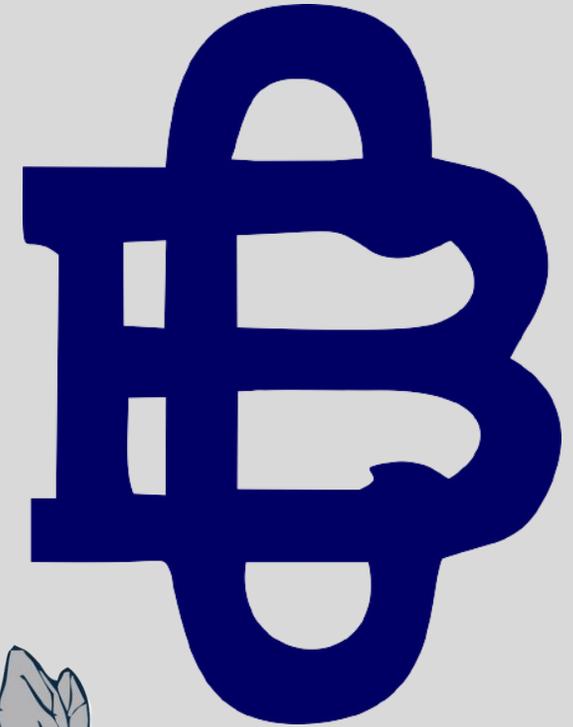

Audrey Simpson, a student at Clay-Battelle and the Monongalia County Technical Education Center, wrote an article for the newspaper explaining the importance of the levy.

Simpson talks abouts how the levy impacts education and community. She talk about how important and useful levy affected her family's life. The levy has made it possible for Audrey and other students to be able to take dual-credit classes and with school-issued chromebooks.

Her mom, Patty, works as a custodian at Clay-Battelle High School. The levy provided a pay raise to all school custodians. Overall, the levy provides for education but also for families.

We are proud of our students, like Audrey, who represent Clay-Battelle and their interests so well!

Advice

Dear Abby,

I have trouble staying awake and paying attention in class. I'm so tired all day, but then when I get home, I am wide awake. Then, I can't fall asleep until sometime after midnight.

Sincerely Tired Ted

Dear Tired Ted,

You should start by trying to go to sleep earlier. Try to calm down earlier, do not drink any caffeinated drinks, and begin your bedtime routine. Wake yourself up extra early, try splashing cold water on your face, going for a walk, or playing upbeat music. It's important to train your body when to be awake and asleep!

Events
